个人简介

AI Agent 方向产品创业者，专注于用技术重构人类社交资本的形成与转化机制。清华大学经管学院 Global MBA 在读 (GPA 3.93/4.00, 排名 2/67)，拥有 6 年软件工程与跨境产品经验，曾在美国医疗 SaaS 与阿里巴巴菜鸟网络参与复杂系统与平台建设。当前作为创始人开发 AI Agent 产品 CoffeeChat，基于 Dunbar 理论设计动态圈层机制提升高质量连接转化效率，已完成 100+ 用户访谈并推进 MVP 落地中。具备 AI 产业链研究与投资分析能力，长期跟踪 AI 前沿，通过学术论文与行业研究快速构建对新技术方向的认知框架，并转化为产品设计与投资判断。

教育背景

- 清华大学 Tsinghua University - 经济管理学院全日制 Global MBA** **北京, 中国 2024.09-now**
- GPA: 3.93/4.0, 排名: 2/67; 金融科技技能提升项目 (金融系, 精选学员)
 - 课程: 数据模型和决策、会计学、公司金融、金融市场机构, 人工智能、战略管理、商法、市场营销等
- 伦敦商学院 London Business School - 交换 MBA 项目** **伦敦, 英国 2025.08-2025.12**
- 课程: 私募股权与风险投资、财务报表分析、并购与战略联盟、创业企业融资、困境企业重整
- 约翰霍普金斯大学 Johns Hopkins University - 信息工程硕士** **巴尔的摩, 美国 2016-2018**
- 浙江大学 Zhejiang University - 信息工程学士** **杭州, 中国 2012-2016**

项目与领导力

- CoffeeChat(创始人): AI Agent 驱动的职业社交资本管理产品 (入驻清华 x-lab)** **北京, 中国 2025.11-now**
- 洞察 MBA 职业社交中“连接效率低且难以沉淀”的结构性问题, 提出“高质量弱连接转化”为核心的产品方向, 并基于 20+ 竞品分析快速完成市场定位与产品路径判断, 形成 CoffeeChat 核心策略。
 - 设计基于 Dunbar 社交圈层与社会资本的理论结构, 构建强/弱关系动态演化机制, 并通过用户意图解析与基于特殊场景下的网络搜索算法, 实现高质量人脉匹配/推荐。
 - 设计分层信息 Reveal 机制与 AI 分身 (AI twin/persona), 在保护隐私的同时提升连接转化率。
 - 在全球 Top MBA 项目中完成 100+ 用户深度访谈, 推进 MVP 产品开发与冷启动策略设计中。

实习经历

- 中信证券资本 - 科技投资 (AI 与硬科技) 实习生** **北京, 中国 2025.06-2025.08**
- 支持 10+ 个 AI/硬科技项目: 产业链研究、企业访谈, 形成对不同赛道投资价值的初步判断。
 - 开展海外 AI 技术追踪与竞争格局梳理, 形成对关键赛道的结构性认知, 为项目寻源提供信息支撑。
- 华港财富 - 产品创新 (和清华合作的实践项目) 实习生** **北京, 中国 2025.02-2025.05**
- 主导搭建中外 AI 产业链研究框架 (基础设施、核心技术、应用层), 评估各细分领域的技术壁垒与创新潜力, 理解不同商业模式与技术路径的差异, 识别可投资潜在赛道, 形成研究摘要。

全职工作经验

- 阿里巴巴菜鸟网络跨境产技部门 | 高级软件工程师** **深圳/杭州, 中国 2021-2024**
- 负责全球跨境物流系统优化, 与 Aliexpress 紧密合作, 支持多国家业务场景与高并发需求, 推动跨境物流复杂系统迭代与问题解决, 提升履约效率与用户体验。
 - 作为技术和项目经理, 主导跨职能团队 (业务/产品/销售/财务/前端/测试) 多时差多语言协作, 从 0->1 设计并研发海外本地商家发货系统 (<https://globalexpress.cainiao.com/br/home>), 落地上线支持 1000+ 中小客户。
- HealthCrowd Inc(软件开发部) | 软件工程师** **圣马特奥, 加州, 美国 2018-2021**
- 设计和开发可扩展的医疗健康相关的数据分析平台及服务 API, 支持公司业务的持续增长。
 - 推出面向客户的健康短信、语音和电子邮件智能推送系统, 覆盖美国 20 多个州, 触达超过 200 万居民。
 - 参与 Hibot-AI 项目, 专注于优化意图检测和响应生成的准确性, 提升自动回复机器人处理客户信息的表现。

其他信息

- 荣誉:** 2025 年国家奖学金; 2024 年新生院长奖学金; 2025 年中金财富杯一等奖 (第四届清华五道口财富管理大赛)
- 技能工具:** Claude Code, Figma, Cursor, Seedance, Aminer, Java, SQL, 数据结构与算法, 软件系统设计, Microsoft
- 特长:** 扬琴十级
- 语言:** 中文、英文
- 兴趣爱好:** 滑雪、CrossFit/Hyrox(BKK26 前 20%完赛)、跑步、网球、阅读

SELF-INTRODUCTION & CAREER INTEREST

AI Agent-focused product founder, building systems to reshape how social capital is formed and converted. Currently pursuing a Global MBA at Tsinghua University SEM(GPA 3.93/4.00, ranked 2/67). Previously worked on software systems at a U.S. healthcare SaaS company and Alibaba Cainiao Network. Founder of CoffeeChat, an AI agent-driven professional networking product. Designed a dynamic network structure based on Dunbar's theory and developed mechanisms to improve high-quality connection conversion. Conducted 100+ user interviews and advancing MVP development.Strong in AI industry research and investment analysis. Actively track frontier developments and rapidly build structured understanding of new technologies through academic papers and industry research, translating insights into product design and investment judgment.

EDUCATION

Tsinghua University(THU) School of Economics and Management (SEM) - Global MBA	BEIJING, CHINA, 2024.09-2026.06
- GPA:3.93/4.0 rank: 2/67 & Fintech Skill Enhancement Program (Finance Dept., select cohort) - courses: Data Models and Decision, Accounting, Artificial Intelligence, Strategic Management, Business Law, Marketing, etc.	
London Business School(LBS) - exchange MBA program	London, UK, 2025.08-2025.12
courses: Private Equity and Venture Capital, Financial Statement Analysis, Financing Entrepreneurial business, Mergers Acquisitions and Strategic Alliances, Managing the Turnarounds,	
Johns Hopkins University(JHU) - M.S. in Information Engineering.	Baltimore, USA, 2016-2018
Zhejiang University(ZJU) - B.S. in Information Engineering	Hangzhou,CHINA, 2012-2016

PROJECT AND LEADERSHIP

CoffeeChat (Founder) AI Agent-driven Professional Social Capital Platform(Incubated at THU x-lab)	BEIJING,CHINA, 2025.11-now
- Identified structural inefficiencies in MBA professional networking (low matching efficiency and limited relationship retention), and defined a product direction centered on high-quality weak-tie conversion; conducted 20+ competitor analyses to establish market positioning and product strategy. - Designed a network structure grounded in Dunbar's theory and social capital, building dynamic strong/weak tie evolution mechanisms; developed high-quality matching and recommendation systems through user intent understanding and context-specific graph search . - Designed a layered information reveal mechanism and AI personas, improving connection conversion while preserving user privacy. - Conducted 100+ in-depth user interviews across top global MBA programs; driving MVP development and go-to-market strategy.	

INTERNSHIP EXPERIENCE

CITIC Securities Capital — Technology Investment (AI & Deep Tech) Intern.	Beijing, CHINA, 2025.06-2025.08
- Supported 10+ AI/deep-tech deals: industry-chain research, company interviews, and investment memo drafting and refinement. - Conducted overseas AI technology tracking and competitive landscape synthesis to inform sourcing and screening.	
Fargo Wealth — Product Innovation (USD & RMB Funds) Intern.	Beijing, CHINA, 2025.02-2025.05
- Built an AI industry-chain research framework (infrastructure, core technologies, applications) for investment screening. - Assessed technical moats and innovation potential across segments; synthesized investable sub-sectors into research summaries.	

PROFESSIONAL EXPERIENCE

Alibaba Cainiao Network – Cross-Border Technology Department Senior Software Engineer.	Shenzhen, CHINA,2021-2024
- Responsible for optimizing global cross-border logistics systems, working closely with AliExpress to support multi-country business scenarios and high-concurrency demands, driving system iteration and issue resolution, and improving fulfillment efficiency and user experience. - Served as both technical lead and project manager, leading cross-functional teams (business/product/sales/finance/frontend/QA) across time zones and languages to develop a 0→1 overseas merchant fulfillment system and successfully launched & supporting 1,000+ SME clients.	
HealthCrowd Inc. – Software Development Department Software Engineer	San Mateo, California, USA, 2018-2021
- Designed and developed a scalable data analytics platform and service APIs for healthcare. - Launched an intelligent messaging program (SMS/voice/email) for customers, covering over 2 million residents in more than 20 U.S. states. - Contributed to HiBOT-AI improvements in intent detection and response generation to enhance chatbot handling of customer message query.	

ADDITIONAL INFORMATION

- Honor:** 2025 National Scholarship; 2024 Freshman Dean's Scholarship; 2025 CICC Wealth Cup-First Prize
- Proficient in:** Claude Code, Figma, Cursor, Seedance , JAVA, SQL, data structures & algorithms, software system design, Microsoft office
- Special skill:** Certified Level 10 in Yangqin(English name: Dulcimer), a traditional Chinese instrument
- Languages:** Chinese, English
- Hobbies:** ski, crossfit/hyrox(finished BKK26 in the top 20%), running,tennis,reading
